

STUBE Hessen weekend seminar

Climate and Migration - who's responsible?

Friday, 05. to Sunday, 07. May 2023
in Fulda

13 CLIMATE ACTION

Climate change threatens the livelihoods of many people. Desertification, tidal waves, the salinization of coastal areas, rising sea levels, storms and other extreme weather events - the already noticeable consequences of climate change pose a threat to millions of people worldwide. For people who are particularly affected by the negative consequences of global warming, migration is therefore an adaptation strategy. In accordance with sub-goal 13.1 "Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries", the seminar will analyze strategies and projects that are applied in practice.

Friday, 05.05.2023

until 5:00 PM	Arrival
6:00 PM	Dinner
