

“Getting prepared”

You are from Africa, Asia or Latin-America and enrolled at a development related study programme in Germany? You would like to return to your home country? You are worried, whether you will be able to find an adequate job after returning? This seminar is addressed to you – and aims at preparing you for the challenge of your professional return.

During the seminar, "Getting prepared" you will receive an intense preparation training from well-known experts in the field of reintegration. They will provide you information about migration policies, reintegration subsidies, social networks and the job application process.

In workshops you will analyse your personal networks, check your personal job application portfolio and you will simulate a job interview in a role-play. The exercises aim at making you feel confident about job application formalities.

Finally, to depict reality further, we will simulate a return situation. This will give you the opportunity to practice what you learned in theory: How do you identify vacancies when there are no official job openings? Where and how do you apply? And how can you involve your family members and friends in the job search? How much can you expect to earn in your home country? And last but not least: will you get an employment contract?

IMPORTANT:

Please bring your CV as a printout to the seminar!

PROGRAMME

Friday, 27th of May 2016
